

International Conference on Set-theoretic Topology

under the auspices of

Wojciech Lubawski
President of the City Kielce

Regina Renz
Rector of the Świętokrzyska Academy

Kielce, 20-25 August 2006

Invited Speakers:

Matatyahu Rubin (Ben Gurion University, Israel)
Juris Steprans (York University, Canada)
Stevo Todorčević (CNRS Paris and University of Toronto, Canada)

Scientific Committee:

Taras Banach, chair (University of Lviv, Ukraine and Świętokrzyska Academy, Poland)
Robert Bonnet (Universite De Savoie, France)
Witold Marciszewski (Warsaw University, Poland)
Grzegorz Plebanek (Wrocław University, Poland)

Organizing Committee:

Adam Idzik (chair)
Wiesław Kubiś (vice-chair)
Beata Kubiś (secretary)
Monika Czajkowska
Krzysztof Pszczoła
Elżbieta Zając

The conference gives an opportunity to present recent works, exchange ideas and to discuss mathematical problems. We encourage all the scientists and young researchers who work in set-theoretic topology and related areas to attend. The scientific program starts on Monday (August 21) morning and continues till Thursday (August 24) evening. The end of the conference is on Friday (August 25) after the breakfast.
